

GETTING STARTED WITH KAHOOT!

New to Kahoot!? You'll be making and playing awesome learning games in no time - just follow the step-by-step instructions in this guide.

You'll learn how to discover and play games created by others, duplicate and edit public games, and even create your own kahoots.

Once you're feeling comfortable with the basics, turn to **The Kahoot! guide to making and playing learning games**, where you'll learn the most powerful ways to play - you can download it from [the Kahoot! Library!](#)

FIRST - WHAT IS KAHOOT?!

Kahoot! is a game-based learning platform used by millions of people around the world every day to discover, create, play and share learning games.

Kahoot! can be used for any subject, any age, and with any device - and players don't even need to register for an account. Our platform is designed to make learning fun - but it's not just for the classroom.

There are millions of people using Kahoot! every month in hundreds of different settings, from classrooms to business meetings to charity fundraisers, award ceremonies, and events. For example, wedding kahoots seem to become a popular genre!

That's right - Kahoot! is all about coming together and making learning awesome. Whether you come together to learn about quadratic equations or food trivia, it's up to you.

One of the things that makes Kahoot! so unique is that it's a platform where you decide on the content, the imagery and how the game is played.

Search in our public library with millions of kahoots and adapt them for your learners, if you don't have time to create a game from scratch.

HOW TO TEACH KAHOOT!

HOW TO PLAY YOUR FIRST KAHOOT

Kahoots are best played in a group setting, like a classroom or a conference room – or even with family in the living room.

Games are displayed on a shared screen – for example a smart TV, a laptop or an interactive whiteboard. You can also use screen sharing tools like Skype, Appear.In, or Google Hangouts to include players from other classes or other parts of the world.

Players join in using their own device – whether that is a smartphone, tablet, laptop, or desktop doesn't matter, as long as they have a browser and good internet connection.

Step 1: Find a game to play

There are millions of public kahoots available on the platform. Search for a game on a relevant topic, or choose a kahoot from the start page. For example, try one of our curriculum-aligned games in math, science, and other subjects.

Or maybe you've created your own kahoot already? Open the kahoot and click **Play**.

TOP TIP

Players don't need an account to play!

HOW TO TEACH KAHOOT!

How to play your first kahoot

Step 2: Launch the game so players can join

Change the settings if you like (for example, randomize the order of questions, control answer streak bonus, etc) and click on **Classic** or **Team** mode to start letting players in.

A unique Game PIN will be displayed at the top of the screen. Players enter this PIN to join the game in the [Kahoot! app](https://kahoot.app) for iOS and Android. Alternatively, if they can't install the app on their device, they can join by going to kahoot.it in their browser.

Step 3: Play the kahoot

Click **Start** once you can see all the players' nicknames on the "lobby" or waiting screen. During gameplay you can use the space bar or your mouse to go to the next question.

At the end of the game, click **Feedback and Results**, and then **Final Results** to save and download the scores, favorite, play again, or play in Ghost Mode.

HOW TO TEACH KAHOOT!

HOW TO MAKE YOUR FIRST KAHOOT

Step 1: Log in and click Quiz, Jumble, Discussion, or Survey

Log in to create.kahoot.it and click **Quiz, Jumble, Discussion,** or **Survey** to create a fun learning game in minutes, made from a series of multiple choice questions.

Discussion

Initiate and facilitate debate

Quiz

Introduce, review and reward

Jumble

Promote higher order thinking

Survey

Gather opinion and insight

Step 2. Add a description, tags, and cover image

Adding a good description helps you define learning objectives for the game and keep it focused. Using descriptive tags will ensure other teachers can find it easily. A great cover image helps the kahoot stand out and attract more players.

The image shows a hand holding a tablet displaying the Kahoot! Quiz creation form. The form is titled "K! Quiz" and has a "Close" button in the top left and an "Ok, go" button in the top right. The form includes the following fields:

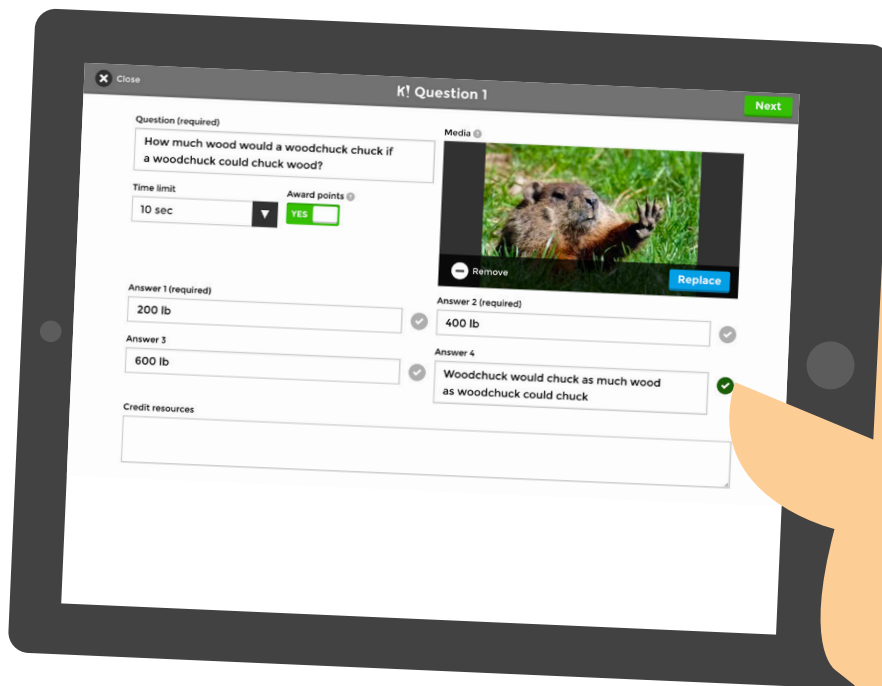

- Title (required):** Woodchucks
- Description (required):** All about #woodchucks!
- Cover image:** A photo of a woodchuck eating grass. There are "Remove" and "Replace" buttons below the image.
- Audience (required):** Social
- Language:** English
- Intro video:** <https://www.youtube.com/watch?v=xvNR4SRJu08>

How to make your first kahoot

Step 3: Create the learning game by adding questions, answers, and imagery

Follow the instructions on-screen to add questions, answers, images and video clips. You can also fine-tune the kahoot using different timer and points settings or setting multiple correct answers.

Have you tried **Jumble** yet? This is a game format where accuracy is king. Players will have to place the answers in correct order.

HOW TO TEACH KAHOOT!

HOW TO ASSIGN A KAHOOT AS HOMEWORK

In addition to playing live in a group setting, you can also assign kahoots as homework with the challenge feature.

Save time on correcting assignments and make homework really engaging for students. They play homework challenges after class in our [mobile app](#), and you get a neat report with the results.

On your computer, open a kahoot and hit the **Challenge** button. Select when you want the challenge to end, copy the link or the game PIN and share it with your students. For example, via LMS, email, etc. It's possible to challenge players from the mobile app, too: log in to your account, open a kahoot you like, tap **Play** and **Challenge** friends.

You can also challenge your friends and family with a cool quiz for fun!
